

Noorain Afsar

SUMMARY

Results-oriented Data Analyst and Business Development professional with experience in data analytics, business intelligence, reporting, and operational performance improvement. Skilled in Python, SQL, Pandas, Excel, Power BI, Tableau, and Oracle for data extraction, cleaning, analysis, visualization, KPI reporting, and dashboard development. Experienced in analyzing business, market, customer, and operational data to identify trends, uncover opportunities, and support process improvement. Familiar with machine learning and predictive analytics using Scikit-learn and AWS SageMaker. Strong ability to translate complex data into actionable insights that support management decision-making, business growth, and operational efficiency.

EXPERIENCE

Data Analyst & Business Development | Creative Auto Service Sole Proprietorship LLC, Abu Dhabi, UAE

08/2023 to Present

- Analyze business, customer, market, and operational data using Python, SQL, Pandas, Excel, Power BI, Tableau, and Oracle for reporting, KPI tracking, dashboards, and data-driven decision-making.
- Apply Machine Learning, Predictive Analytics, and Market Segmentation using Scikit-learn, Jupyter Notebook, and Google Colab to identify customer trends, revenue potential, and business opportunities.
- Support Business Development through market research, competitor analysis, data-driven insights, and identification of market gaps, growth opportunities, and potential clients.
- Manage UAE government and client portals, including company/vendor registrations, government contracts, tenders, prequalification, quotations, proposals, purchase orders, invoicing, and payment follow-ups.
- Coordinate with government entities, clients, vendors, suppliers, and external stakeholders on compliance, licensing, documentation, approvals, registrations, and commercial processes.
- Support IT and business operations through hardware/software troubleshooting, system setup, user access, software installation, connectivity support, digital records, and process improvement.

Junior Technical Support Engineer | Riviere Mineral Water & Desalination Factory, Abu Dhabi, UAE

10/2021 to 07/2023

- Maintained and analyzed IT asset inventory data using SQL, improving information retrieval efficiency by 25%.
- Prepared compliance and governance reports by organizing, validating, and analyzing structured operational data.
- Tracked departmental service-request data to improve issue visibility, reporting, and resolution monitoring.
- Supported onboarding and access-management workflows while maintaining accurate operational records.
- Created technical and operational documentation to standardize IT and business processes.

Front-End Developer | Global Web IT Solutions, Karnataka, India

07/2019 to 07/2021

- Developed and maintained responsive web interfaces while collaborating with cross-functional technical teams.
