PROFESSIONAL SUMMARY

Data Analyst and Data Science professional with 5+ years of overall professional experience across data analytics, business intelligence, IT support, and business operations. Skilled in Python, SQL, Pandas, Excel, Power BI, Tableau, and Oracle for data extraction, cleaning, analysis, visualization, KPI reporting, and dashboard development. Experienced in analyzing business, customer, market, and operational data to identify trends, generate actionable insights, and support decision-making. Practical knowledge of machine learning and predictive analytics using Scikit-learn and AWS SageMaker.

EXPERIENCE

Data Analyst & Business Development | Creative Auto Service Sole Proprietorship LLC | 08/2023 to Present | Abu Dhabi, UAE

- Analyze business, customer, market, and operational data using Python, SQL, Pandas, Excel, Power BI, Tableau, and Oracle for reporting, KPI tracking, dashboards, and data-driven decision-making.
- Apply Machine Learning, Predictive Analytics, and Market Segmentation using Scikit-learn, Jupyter Notebook, and Google Colab to identify customer trends, revenue potential, and business opportunities.
- Support Business Development through market research, competitor analysis, data-driven insights, and identification of market gaps, growth opportunities.
- Manage UAE government and client portals, including company/vendor registrations, government contracts, tenders, prequalification, quotations, proposals, purchase orders, invoicing, and payment follow-ups.
- Coordinate with government entities, clients, vendors, suppliers, and external stakeholders on compliance, licensing, documentation, approvals, registrations, and commercial processes.
- Support IT and business operations through hardware/software troubleshooting, system setup, user access, software installation, connectivity support, digital records, and process improvement.

Junior Technical Support Engineer | Riviere Mineral Water & Desalination Factory | 10/2021 to 07/2023 | Abu Dhabi, UAE

- Maintained and analyzed IT asset inventory data using SQL, improving information retrieval efficiency by 25%.
- Prepared compliance and governance reports by organizing, validating, and analyzing structured operational data.
- Tracked departmental service-request data to improve issue visibility, reporting, and resolution monitoring.
- Supported onboarding and access-management workflows while maintaining accurate operational records.
- Created technical and operational documentation to standardize IT and business processes.

Front-End Developer | Global Web IT Solutions | 07/2019 to 07/2021 | Karnataka, India

- Developed responsive, user-focused web interfaces using modern JavaScript frameworks and semantic CSS
- Collaborated with cross-functional technical teams to integrate backend APIs and support application functionality.
- Optimized application performance, cross-browser compatibility, and client-side rendering.
